Your selectmen desire at this time to congratulate the inhabitants and taxpayers of Gilford upon the continued prosperity of the town. Since the division of the town in 1893 there have been paid by the present town of Gilford, bills contracted previous to the division and assumed by the present town under the act creating the city of Laconia, amounting to the sum of \$6,347.92. Of this amount a school-house debt of \$1,330.99, in principal and interest, has been paid by taxes assessed for that purpose. The balance of this legacy from the old town, consisting largely of bills which we had already once been taxed to pay, amounting to \$5,016.93 has been paid principally from moneys hired by the town for that purpose.

As the town, as at present constituted, started out in March, 1893, without a dollar in its treasury, it was obliged at once to hire money for a working capital and did so hire and carried over from the first to the second year something over twenty-two hundred dollars of assets in cash and uncollected taxes. Practically this same amount, which is necessary to meet the expenses of the town until another tax is assessed and collected, has been carried along from year to year, the amount carried over this year being \$2,428.91, so that the present net town debt of \$2,253.90 represents all there is left to pay of this obligation of \$6,347.92. Deducting from the whole amount the \$1,330.99 raised to pay the school-house debt it appears that considerably more than one-half of the remainder of \$5,016.93 has already been paid without any direct taxation for that purpose. The bills making up this total were nearly all paid during the four years previous to Feb. 15th, 1897, so that at that time the net debt reached its highest point thus far since the division, \$3,187.06.

Since that date the debt has annually diminished, the decrease this year being \$424.66, and for the three years \$933.16. These sums have been paid out of the receipts

of the town from the state of the amounts due us for railroad, insurance and savings-bank taxes.

The savings-bank tax, in consequence of the liquidation of near-by banks, has for a few years been decreasing somewhat, but it is expected that in the near future there will be an increase of income from other sources, and, as any law yet proposed making a change in the distribution of these credits by the state treasurer is for rather than against us, it is evident that, barring any especial misfortune, if the town continues to raise sufficient funds to meet or pretty nearly meet its regular annual expenses by taxation these state credits will in a few years take care of the balance of the town debt.

How we have been progressing as compared with the average of our neighbors, meanwhile, is shown by the fact that during the six years ending Feb. 15th, 1898, the aggregate net debt of all the cities and towns in the state increased more than three and a half millions of dollars.

While the town has been paying this old town debt its tax rate has fallen from \$2.09 on a poll in 1893, to \$1.68 in 1899. During this same time the rate of taxation throughout the state, as returned to the state treasurer by inventories, has been steadily increasing; the average for all the cities and towns thus returned was \$1.68 4-10 in 1893 and in 1898, \$1.86 2-10.

All bills against the town due to date which have been presented for payment have been adjusted.

Most respectfully submitted,

GEORGE W. MORRILL,	Treasurer.

Library Report.

To the Citizens of the Town of Gilford:

The board of trustees of the public library beg leave to present their report for the year ending Feb. 15th, 1900.

The library at the present time contains 856 volumes, 134 volumes having been added during the year. Of this number 4 volumes were donated by the state, 1 by an individual and the balance, 129 volumes, were purchased from funds furnished by the town.

There has been an increase of 20 registered borrowers during the year. The whole number of volumes loaned during the year is 2370 divided among the different classes as follows: Fiction, 2251; history, 65; general literature, 16; travels, 10; art, 13; biography, 11; poetry, 4. This is an increase of 539 volumes over the number loaned last year. The largest number loaned in any one day was 60.

Although the number of books purchased during the year exceeds the purchases of any previous year there still remains in the treasury a balance of \$20.11. So many books have been added to the library since the present catalogue was prepared that it is now practically useless, consequently the trustees have thought it advisable to issue a supplementary catalogue and an unusually large amount of money has been carried over to meet this expense and the payment of other bills which will probably become due before another appropriation becomes available. Under the policy followed by the trustees of devoting the money raised by the town largely to the purchase of books, the library is rapidly increasing in

size and as the present law compells the raising of money for library purposes it should continue to do so, hence some place must soon be provided by the town in which the books can be properly shelved; the room at present used not being sufficient for the number now on hand. The interest in this matter is such, as shown by the large and almost constantly increasing patronage of the library, that we hope and trust that some action will be taken by the town to provide more suitable accommodations during the coming year.

School Report.

The school work for the past year has progressed quietly and good results have been accomplished.

During the past year we have maintained eight schools of twenty weeks each, and think we can say in justice to our teachers and all others connected with the schools that they have had a successful year.

Although the ability of the teacher is a very important factor in the success of a school, yet no school is complete without the hearty co-operation of parents, scholars and teacher.

We think that our teachers, as a whole, have maintained good order in their several schools and have gained the good will of their scholars.

The high school of ten weeks was a success in some branches, but the order was deficient.

The house in No. 6 was in need of repairs. We have had the walls wainscotted and plastered, the chimney rebuilt, as it was not safe. Houses No. 1 and 12 have been painted and others need to be. House No. 9 was shingled on one side and a portion clapboarded. The shed in No. 10 was repaired and shingled.

The houses Nos. 3 and 5 need to be repaired and have modern furniture, as they are fitted now with wooden benches and high desks. All of the houses with these two exceptions have modern furniture.
